

Acknowledgments

TIMSS is a major undertaking of IEA, and together with PIRLS, comprises the core of IEA's regular cycle of studies. Responsibility for the overall direction and management of these two projects resides at the TIMSS & PIRLS International Study at Boston College. Headed by Matthias von Davier, the study center is located in the Lynch School of Education and Human Development at Boston College. The TIMSS & PIRLS International Study Center works in partnership with IEA Amsterdam, which manages country participation in a number of IEA international studies, IEA Hamburg, which is a data processing and research center, and RTI International in Research Triangle Park, North Carolina. The TIMSS & PIRLS International Study Center also works closely with the National Research Coordinators of the participating countries, who are responsible for the complex tasks involved in implementing the studies in their countries. It takes extreme dedication on the part of many individuals around the world to make TIMSS a success and the work of these individuals across all of the various activities involved is greatly appreciated.

With each new assessment cycle of a study, one of the most important tasks is to update the assessment frameworks. Updating the TIMSS assessment frameworks for 2027 has involved extensive input and reviews by individuals at the TIMSS & PIRLS International Study Center, IEA, the TIMSS 2027 National Research Coordinators, and the two TIMSS expert committees—the TIMSS 2027 Science and Mathematics International Research Committee and the TIMSS 2027 Questionnaire International Research Committee. This section acknowledges the contributions of these individuals in the preparation of the *TIMSS 2027 Assessment Frameworks*.

TIMSS 2027 Framework Development at the TIMSS & PIRLS International Study Center at Boston College

Matthias von Davier — Executive Director

Eugenio Gonzalez — Senior Research Director, Statistics, Psychometrics and Assessment Innovations

Ann M. Kennedy — Senior Research Director, Project Management

Charlotte E. A. Aldrich — Assistant Research Director, TIMSS Mathematics and Special Projects

Allison Bookbinder — Assistant Research Director, TIMSS Science and Special Projects

Audrey Gallo — Senior Research Specialist, Development and Reporting

Lale Khorramdel — Research Director, Digital Assessment, Development, and Special Projects

Deepthi Kodamala — Graduate Research Assistant

Katherine A. Reynolds — Associate Research Director, Context Questionnaires and Reporting

Liqun Yin — Senior Research Psychometrician

TIMSS 2027 Science and Mathematics International Research Committee

The Science and Mathematics International Research Committee (SMIRC) comprises internationally recognized mathematics and science experts who reviewed and recommended updates for the TIMSS 2027 Mathematics and Science Frameworks. The SMIRC also reviews the TIMSS 2027 items at key points in the development process.
